

Welcome to our website,

This website was created in March 2007 with the hope of being one of the most informative eBook site in the internet. My husband and I are working very hard to accomplish that. Our customers look to us for great quality and incredible service. We try to deliver on these expectations.

Our eBook Club is one of the best in the internet and it is expanding daily.

We have a large selection of quality and informative eBooks for various subjects. We also provide the quickest and least expensive way of assisting our customers setting up their online business.

Best Wishes
Kleopatra Kazakias

Hi everybody,

My name is Kleopatra Kazakias but all of my friends know me as Klery. I came to this great country in 1968 from another great country, Greece. I am proud to be a Greek-American.

When I came here I went to college to become an Accountant but instead of graduating, fifty more credits to go, I decided to get married with Mr. perfect., Gabriel.

We had a beautiful daughter, Lydia, who is presently an Assistant Principal working for the Board of Education System in New York City. My husband and I are proud of her, her husband and our newly born grandson, Theodore. We all now live in Long Island, New York.

When my daughter graduated from High School, I managed to get my licenses for Life insurance, Health Insurance, Disability Insurance, Variable Annuities and Mutual Funds. I worked for a major Insurance Company for a while and then I settled down to become a HOUSEWIFE.

My daily routine is taking care of my husband, my mother and law, my daughter, her husband, my grandson and Zoe (our dog).

My husband is busy most of the day checking and maintaining my website. It became an obsession to him. But, I let him tell you something about himself below.

Thank you for listening,
Kleopatra Kazakias

Hello,

I am Klery's husband but I do have a name. My name is Gabriel Kazakias. I am presently a retiree collecting a pension and spend most of my time taking care Klery's website.

When available, I do engineering consultation, for major companies that they need my help.

I am a graduate mechanical engineer with a Bachelor's and Master's Degrees having more than twenty five years experience working as a Project Manager for a major Nuclear Power Plant Utility.

If you were going to ask me if Nuclear Plants are safe, the answer is absolutely yes. The people that I came across not only in my plant but also during my visits to other Nuclear Utilities through out the country are the most sincere professionals that I have seen in my life.

I had a heart attack fifteen years ago but I am fine now. I am a simple man, with simple needs and a lot of gratitude.

Thank you for visiting my wife's website
Gabriel Kazakias
